

*Objective:*

Front end web development position, full-time or contract.

*Summary:*

My strongest skills are within front end web development. I believe in clean code with cross browser compatibility and hacks only as a last resort. In all the jobs listed below my main responsibility has been front end with minor back end coding and debugging.

*Skills:*

Excellent HTML and CSS skills; proficient in JavaScript with jQuery and YUI toolkits, SVN and Git version control systems; working knowledge of XSLT, FBML, XUL, Freemarker, Django, Jinja, PHP, Shell, Python, Ruby on Rails, Flash; fluent in Vim and Photoshop editors.

*Experience:*

Contract Web Developer, 03/2008 — present

[Peralta Informatics](#)

Work in a small team of engineers. Responsible for HTML/CSS development in ASP.NET/XSLT environment. Design independently as well as contribute to revisions.
