Summary:

I am a web and mobile developer with an eye for UX and UI design. I enjoy an environment where I am able to utilize my leadership, UI prototyping, and programming skills.

Skills:

- excellent HTML, CSS and JavaScript skills, including the following JS libraries: jQuery, jQueryUI, Underscore, Knockout, Backbone, and others;
- experience working with LESS, SASS, and CoffeeScript;
- development of complex iOS applications on the Appcelerator Titanium platform;
- working with Git (preferred) and SVN version control systems;
- front end development within these environments: Erlang, XSLT, FBML, XUL, Freemarker, Django, Jinja, PHP, Python, and Ruby on Rails;
- working knowledge of Shell Scripting;
- Vim is my text editor of choice;
- fluent in Adobe Photoshop and have working knowledge of Adobe Illustrator;
- great leadership skills.

Experience:

[Zimbra](#) | Senior Software Engineer | 1/2014 — present

- maintain Zimbra Collaboration Suite (email, contacts, calendar, briefcase);
- develop mobile web app with AngularJS and Ionic;
- develop new version of the desktop web email client with AngularJS..

[Citybot](#) | Founding Engineer, Creative Director | 3/2011 — 1/2014

- build from the ground up to production, maintain, and revise multiple city guide iOS applications on the Appcelerator Titanium platform;
- design and develop the prototype of the web version of the application;
- manage other iOS and web projects;
- manage major design projects: logo, website, iOS app, and Android app;
- oversee small design projects: t-shirts, flyers, banners, etc;
- automate multiple iOS apps configuration, Ad Hoc and production builds, and uploading beta builds to the distribution portal with a single command; and
- contribute to company's strategy development and perform various organizational tasks.

[AKQA](#) | Senior Web Developer | 12/2007 — 12/2008, 4/2010 — 10/2012

- HTML, CSS, and JavaScript development and deployment of small to medium-sized

ASP.NET/XSLT, Freemarker, and Ruby on Rails projects for brands like Nike, Visa, Target, Method, Gap, and others;

- worked as a front end developer on a Facebook application using Facebook Markup Language; and
- contributed to the prototype of a marketing tool involving a client-provided content data store and a Mozilla Firefox extension using XUL.

Contract Web Developer | 3/2008 — 10/2012
